Climate Control & Air Conditioning Services

www.synergyintegrated.co.za

Comprehensive Climate Solutions

At Synergy Integrated Solutions, we provide comprehensive climate control from start to finish. Our team is dedicated to creating comfortable, energy-efficient environments for both residential and commercial clients.

We understand that air conditioning is not just a luxury, but a vital component of productivity and well-being in the modern workspace and home. By combining industry-leading hardware with professional technical expertise, we ensure your systems operate at peak performance through every season.

“We prioritise your comfort, budget and system longevity above all else.”

Our Service Expertise

01

Supply

Quality wall-mounted, inverter, cassette and commercial air conditioning systems sourced from global leading brands.

02

Installation

Neat, safe and professional installations by experienced technicians ensuring seamless integration into your space.

03

Maintenance

Comprehensive cleaning, servicing and preventative maintenance to keep your system running at maximum efficiency.

04

Repairs

Fault finding, regassing, leak checks, electrical repairs and emergency call-outs provided by expert technicians.

Why Synergy?

Residential & Commercial

Solutions for homes, offices, shops and businesses.

Energy Efficient

We recommend systems that help reduce electricity costs.

Reliable Support

After-sales support, servicing and long-term maintenance plans.

04 — INSTALLATION SCOPE

What We Install

- Split air conditioning units
- Inverter air conditioners
- Cassette and under-ceiling units
- VRV / VRF systems
- Ventilation and extraction systems
- Server room cooling

Elite Inverter Split System

The Elite Inverter Split System features advanced variable speed technology to maintain precise temperatures while consuming up to 40% less energy than standard units. Designed for near-silent operation and sleek aesthetic integration into any modern room.

MODEL NO.

SYN-INV-12000

CAPACITY

SYN-INV-12000

ENERGY RATING

A+++ Inverter

Standard Range Comparison

SYSTEM MODEL	BTU RATING	EER / COP
S-Series Compact	9,000 BTU	4.2 / 4.1
Elite Inverter	12,000 BTU	5.1 / 4.8
Pro Wall-Mount	18,000 BTU	4.5 / 4.2
Cassette Commercial	24,000 BTU	4.0 / 3.9
Under-Ceiling Unit	36,000 BTU	3.8 / 3.6
