Powering Your Future, Sustainably

www.synergyintegrated.co.za

Solar & Energy Solutions

At Synergy Integrated Solutions, we go beyond climate control by helping you take control of your energy. Our solar solutions are designed to reduce electricity costs, provide reliable backup power, and support a greener, more sustainable future.

Whether for residential, commercial, or industrial applications, our team delivers tailored solar systems that integrate seamlessly with your existing infrastructure.

“Smart energy solutions that maximise savings, efficiency, and independence.”

Core Solar Services

01

System Design

Custom solar solutions tailored to your energy usage, property size, and budget.

02

Supply

High-quality solar panels, inverters, lithium batteries, and mounting systems sourced from trusted global brands.

03

Installation

Professional, compliant installations ensuring optimal performance, safety, and durability.

04

Maintenance & Support

Ongoing system monitoring, servicing, and technical support to maximise efficiency and longevity.

Why Go Solar?

Reduce Electricity Costs

Lower monthly energy bills significantly.

Backup Power Security

Stay powered during outages and load shedding.

Sustainable Energy

Reduce your environmental footprint.

Increase Property Value

Solar-ready properties are increasingly in demand.

04 — INSTALLATION SCOPE

Solar System Options

- Grid-Tied Solar Systems
- Hybrid Solar Systems (Solar + Battery Backup)
- Off-Grid Solutions
- Battery Backup & UPS Systems
- Solar Upgrades & Retrofits

Hybrid Solar Power System

A complete energy solution combining solar panels, inverter technology, and advanced lithium battery storage. Designed to provide uninterrupted power supply, reduce dependence on the grid, and optimise energy savings throughout the day and night.

MODEL NO.

SYN-HYB-5KW

CAPACITY

**5kW Inverter +
5kWh Battery**

ENERGY RATING

**A+ Hybrid
Efficiency**

Standard Range Comparison

SYSTEM MODEL	INVERTER SIZE	BATTERY CAPACITY	PANEL INPUT (MAX)	EFFICIENCY
S-Series Hybrid	3kW	3.6 kWh	4 kW	93%
Elite Hybrid	5kW	5 kWh	6.5 kW	95%
Pro Hybrid	8kW	10 kWh	10 kW	96%

Ready to Take Control of Your Power?

Contact Synergy Integrated Solutions today for a free solar assessment and customised quotation.
